Using Your Multifunction Oven

1. Select the function using the function knob. The oven light will come on.
2. Select the temperature using the temperature control knob. The oven temperature indicator light, above the temperature knob on the control panel, will glow until the oven has reached the set temperature, and then it will go out.
3. When you have finished cooking, turn the function and temperature control knobs to the off O position.
If 'A' is flashing or steadily illuminated on the display, press the

STOP

and

buttons together.
