Safety & Warnings

WARNING!

Electrical Shock Hazard

• Disconnect the appliance from the mains electricity supply before carrying out any work or maintenance on it.
• Connection to a good earth wiring system is essential and mandatory.
• Alterations to the domestic wiring system must only be made by a qualified electrician.
• Failure to follow this advice may result in electrical shock or death.

WARNING!

Cut Hazard

• Take care - panel edges are sharp.
• Failure to use caution could result in injury or cuts.

WARNING!
Fire Hazard

- Do not use adapters, reducers, or branching devices to connect this appliance to the mains power supply.
- Failure to follow this advice may result in overheating, burning, or fire.

Important Safety Instructions!

- Particular attention shall be given to the relevant requirements regarding ventilation.
- Read these instructions carefully before installing this product.
- Please make this information available to the person installing the appliance as it could reduce your installation costs.
- This appliance is to be installed and serviced only by an authorised person.
- Installation must comply with your local building and local electricity regulations.
- The manufacturer accepts no responsibility for the incorrect installation of appliances. Incorrect installation may result in personal injury, damage to property and may invalidate any warranty or liability claims.
- Do not modify this appliance.
- Do not use or store flammable materials on or near this appliance.
- Packing elements (eg plastic bags, polystyrene foam, staples, packing straps etc) and tools should not be left around during and after installation, especially if they are within easy reach of children, as these may cause serious injuries.
- If the power supply cable is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified person in order to avoid a hazard.
- Isolating switch: make sure this oven is connected to a circuit which incorporates an isolating switch providing full disconnection from the power supply in accordance with the wiring rules.
- The oven must be earthed.
- Do not use adaptors, reducers or branching devices to connect the oven to the mains electricity supply, as they can cause overheating and burning.
- The appliance must not be installed behind a decorative door in order to avoid overheating.
